

FIRSTMATH PRINTABLES - GRADE 1

Thinking Addition to Subtract within 20

ID: G1-MATH-OA-003 | Alignment: CCSS.MATH.CONTENT.1.OA.B.4

Name: _____

Date: _____ Score: _____

Problem #1

$$14 - 8 = ?$$

Think: $8 + \underline{\quad} = 14$

Difference: _____

Problem #2

$$13 - 7 = ?$$

Think: $7 + \underline{\quad} = 13$

Difference: _____

Problem #3

$$15 - 9 = ?$$

Think: $9 + \underline{\quad} = 15$

Difference: _____

Problem #4

$$12 - 5 = ?$$

Think: $5 + \underline{\quad} = 12$

Difference: _____

Problem #5

$$16 - 8 = ?$$

Think: $8 + \underline{\quad} = 16$

Difference: _____

Problem #6

$$11 - 4 = ?$$

Think: $4 + \underline{\quad} = 11$

Difference: _____

Problem #7

$$17 - 9 = ?$$

Think: $9 + \underline{\quad} = 17$

Difference: _____

Problem #8

$$13 - 6 = ?$$

Think: $6 + \underline{\quad} = 13$

Difference: _____

ANSWER KEY - Thinking Addition to Subtract

ID: G1-MATH-OA-003-KEY | Alignment: CCSS.MATH.CONTENT.1.OA.B.4

TEACHER ANSWER KEY

Verified Common Core Standard

#1 $14 - 8 = ?$

Fact Family: $8 + 6 = 14$

Answer = 6

#2 $13 - 7 = ?$

Fact Family: $7 + 6 = 13$

Answer = 6

#3 $15 - 9 = ?$

Fact Family: $9 + 6 = 15$

Answer = 6

#4 $12 - 5 = ?$

Fact Family: $5 + 7 = 12$

Answer = 7

#5 $16 - 8 = ?$

Fact Family: $8 + 8 = 16$

Answer = 8

#6 $11 - 4 = ?$

Fact Family: $4 + 7 = 11$

Answer = 7

#7 $17 - 9 = ?$

Fact Family: $9 + 8 = 17$

Answer = 8

#8 $13 - 6 = ?$

Fact Family: $6 + 7 = 13$

Answer = 7

Instructions: Read each problem. Cross out what was taken away and solve.

Story #1

Liam had 14 toy cars on the rug. He put 6 cars back in the toy box. How many toy cars are still on the rug?

Draw or Model:

Equation: _____ Answer: _____

Story #2

A bakery tray had 12 blueberry muffins. Customers bought 5 muffins this morning. How many muffins are left on the tray?

Draw or Model:

Equation: _____ Answer: _____

Story #3

There were 15 birds resting on a tree branch. 8 birds flew away into the sky. How many birds remained on the branch?

Draw or Model:

Equation: _____ Answer: _____

Story #4

Sophia picked 16 juicy red strawberries from her garden. She ate 7 of them for a snack. How many strawberries are left?

Draw or Model:

Equation: _____ Answer: _____

Problem #1

Liam had 14 toy cars on the rug. He put 6 cars back in the toy box. How many toy cars are still on the rug?

Model: $14 - 6 = 8$

Correct Answer = 8

Problem #2

A bakery tray had 12 blueberry muffins. Customers bought 5 muffins this morning. How many muffins are left on the tray?

Model: $12 - 5 = 7$

Correct Answer = 7

Problem #3

There were 15 birds resting on a tree branch. 8 birds flew away into the sky. How many birds remained on the branch?

Model: $15 - 8 = 7$

Correct Answer = 7

Problem #4

Sophia picked 16 juicy red strawberries from her garden. She ate 7 of them for a snack. How many strawberries are left?

Model: $16 - 7 = 9$

Correct Answer = 9
